

GENERAL MANAGER'S BULLETIN #18-35

TO: All Airport Tenants
FROM: Douglas Stearns
DATE: October 25, 2018
SUBJECT: **NEW TRAFFIC PATTERNS – EARHART DRIVE SOUTHBOUND AND
RECIRCULATION ROAD TO HOV ROADWAY**

As discussed at the recent Station Managers' Meeting, there are two new traffic patterns associated with the construction of Terminal One going into effect on or about Wednesday, October 31, 2018 that you and your staff should be aware of.

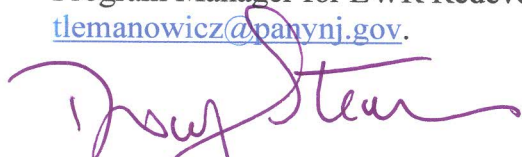

The first new traffic pattern is the South Bridge Detour (see Map "A" attached), which is necessary to allow for construction work along Earhart Drive between Building 60 and Basilone Road. As part of this phase of construction, Basilone Road will return to a two-way operation. All vehicles travelling southbound on Earhart Drive will then be routed across South Bridge (N39) to a left hand turn onto Carson Road. Traffic will proceed south to the intersection of Carson Road and Basilone Road to a newly installed traffic signal, turning left to continue onto Earhart Drive southbound or turning right to South Directory Road.

The second new traffic pattern is a result of work associated with the construction of the new Bridge N64 and Hotel Road Widening Project (see Map "B"). As you may know, a new elevated roadway connecting Recirculation Road to HOV Road (adjacent to Ramp "A") will be constructed and become Bridge N64. The elevation of this roadway will allow for the permanent de-signalization of the Hotel Road/Recirculation Road/HOV Road intersection, providing a seamless connection between Terminal One and the rest of the airport.

In order to provide a continual access between Recirculation Road and HOV Road while this work is underway, vehicles coming from Recirculation Road and Lindbergh Road that are destined for the HOV Roadway will be detoured to Hotel Road, onto a new temporary bypass ramp constructed through Terminal 'A' Short Term Parking Lot and then to HOV Roadway.

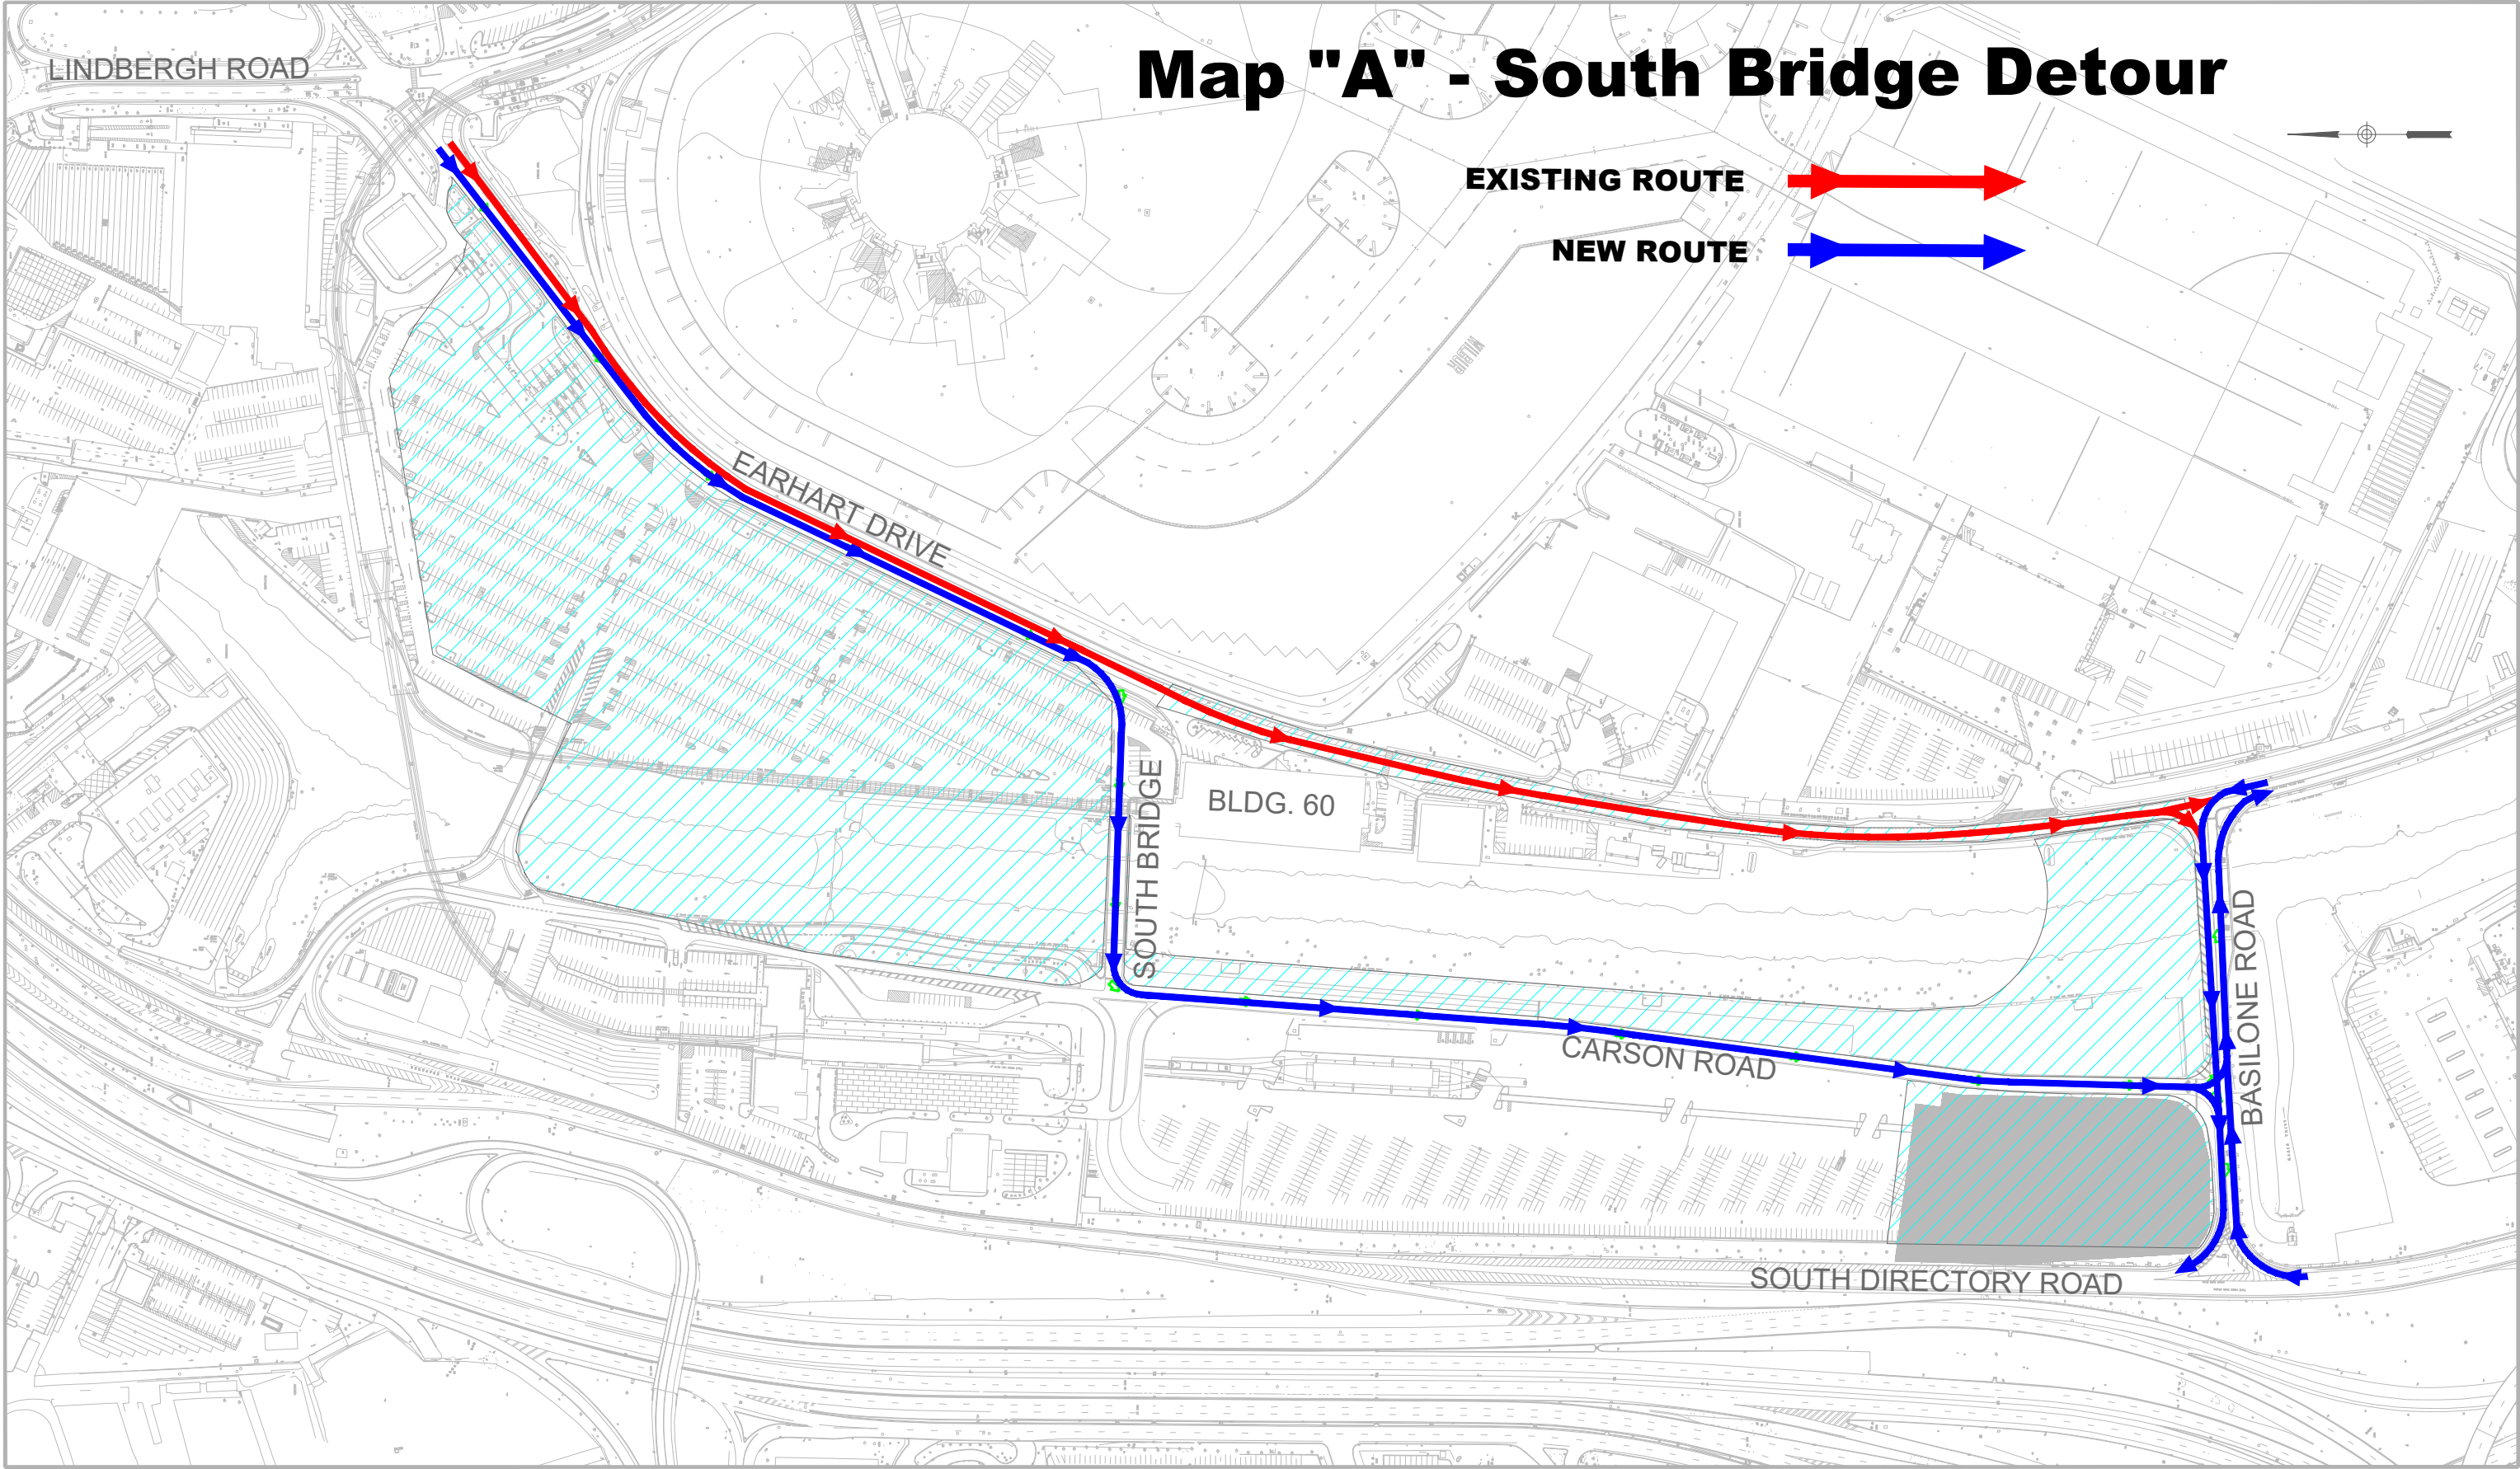

It's important to note that both traffic patterns will begin on or about Wednesday, October 31st and remain in effect until further notice.

Should you have any questions related to this operation, please contact Thomas Lemanowicz, Program Manager for EWR Redevelopment, at (973) 961-6281 or email at tlemanowicz@panynj.gov.
