## TERMINAL ONE REDEVELOPMENT PROGRAM

### KEY TO THE FUTURE OF THE AIRPORT AND REGION

A **\$2.7 billion** modernization effort will **replace Terminal A**, provide associated roadway and airside improvements, and a new parking garage. The new terminal is slated to have a partial opening in **2021** with the full opening in **2022**.

#### A WORLD-CLASS EXPERIENCE

Terminal One is the largest design-build project in New Jersey's history. The Program reflects the Port Authority's commitment to providing the best experience possible for air travel passengers.

#### EASY TO PARK AND EXIT

A new public parking garage with car rental facility is conveniently located all under one roof. The multi-level garage provides easy access to the terminal via a pedestrian walkway and allows travelers to exit quickly.

#### MORE AMENITIES

The central retail plaza, the heart of the terminal complex, will offer regionally-inspired shopping, dining and entertainment areas.

#### ACHIEVING SUSTAINABILITY

Terminal One will achieve Leadership in Energy and Environmental (LEED) design standards. Examples of green design include solar-electric curbside canopies and reduced water usage fixtures.
